

Quick Steps

Core setup

- Small game. Hider team max 6 cards unless they have a power-up.
- If the hider exceeds their hand limit, they must immediately play or discard cards until they are back down to 6 cards, unless a power-up increases their hand limit.
- The hider receives the hider deck; the seekers receive the investigation book.
- Both sides should have access to the rules and carry at least two dice for game mechanics.
- The seekers must keep a location tracker active so the hider can follow their movements.

Hiding period

- The hider has 30 minutes to reach their hiding location.
- During the hiding period, the hider may travel on foot and use approved public transit.
- The hider must finish the hiding period in the zone of a transit station or stop included on the game map.
- That station becomes the center of the hider's hiding zone.
- Once the hiding period ends, the hider must remain within the hiding zone for the rest of the round.

Hiding zone & endgame

- Hide zone: 300 meters from the hider's station.
- Once seekers enter the hide zone and are no longer on transit, the endgame begins.
- Once the endgame begins, the hider may no longer move freely.
- The hider must stay in a publicly accessible hiding spot until found.
- In the endgame, the hider may be no more than 3 meters from a public pathway, road, or path.
- The hider is considered found when seekers are within 5 feet and have spotted them.
- If seekers are close but have not identified the hider, the hider has not yet been found.
- When the hider is found, stop the hiding clock and add all time-bonus cards in the hider's hand to their final hiding time.

Timing & question flow

- Seekers may ask only one question at a time; the next question cannot be asked until the previous one has been answered.
- Normal question: 5 minutes.
- Photo question: 10 minutes.
- If a question is not answered within the allowed time, the hider's time is paused until the question is answered, and the hider does not draw cards for that question.
- The hider must answer questions truthfully and based on their current location.
- If a question cannot be answered because of the hider's movement restrictions, the valid answer is: 'I cannot answer this question.'

- Questions that have already been asked may be repeated, but the cost increases each time: 2× for the second asking, 3× for the third, 4× for the fourth, and so on.
- Repeated questions are resolved as separate draws at the multiplied cost; do not combine them into one larger draw.

Cards & rewards

- Matching: draw 3, keep 1.
- Measuring: draw 3, keep 1.
- Radar: draw 2, keep 1.
- Thermometer: draw 2, keep 1.
- Photo: draw 1, keep 1.
- Cards are drawn after a question has been answered, according to the question category.
- The hider keeps cards until they are played or discarded.
- Multiple curses may be played, but only one curse can block questions or transport at a time.
